

# Scrap the Bid

We'll All End Up Paying for  
London's Billion-Pound Olympic Bid

£1.5 billion for  
a special 'Olympic lottery' and up to £550 million in extra  
council tax

as important wildlife habitats  
are replaced with a 'landscaped park' and new stadiums  
that will eventually become the property of big business

as rents are  
forced up and greedy landlords make a killing

as money is  
diverted to a few elite athletes in the search  
for more medals

as  
decisions about 'regeneration' are dominated  
by the needs of a two-week sporting event,  
not the needs of local people
